

Increased need for documentation.  
Increased reporting requirements.  
Decreased labor pool.

## Providing **QUALITY** **CARE.**

### **CEO | CIO | CMO | CFO** | Making it Humanly Possible

As a leader in your healthcare organization, your most pressing challenge is maintaining the delicate balance of both quality care and financial stability. All this while navigating through constant regulatory change and managing community relations. You need a technology partner that understands your organization's unique needs due to its geographic location, community demographics, historic growth and individual mission.

At 3M, it is our mission to help you manage this healthcare balancing act by providing customizable solutions and services that benefit your entire organization, empower your care providers and enhance the lives of your patients.

#### **Customizable solutions from a single vendor**

3M Health Information Systems recognizes that every organization has its own distinct needs. That is why we provide customizable solutions that work well together as well as integrate with your existing systems. Regardless of how far along you are on the road to a complete electronic record, 3M can help reduce inefficiencies in document capture, storage and management. We can streamline your workflows and enhance your organization's transparency and interoperability among its departments. The result is the ability to deliver quality care while maintaining positive financial performance.

#### **3M solutions:**

- Facilitate information sharing with other institutions
- Shorten document creation and distribution time
- Reduce (or even eliminate) transcription costs
- Code patient data accurately and completely to ensure your hospital's submissions accurately reflect the complexity of your patient community and resource requirements
- Enable working in a hybrid environment, which can increase productivity, transparency, and patient safety
- Enable staff to work remotely
- Support the move toward electronic medical records

# 3M Health Information Systems solutions for the healthcare executive

## Key solutions

- **3M™ ChartScriptMD™ Software**—Our front-end speech recognition application, based on Philips SpeechMagic™, increases patient safety, by allowing your care providers to dictate and sign off on a patient chart in one step and eliminates transcription costs.
- **3M™ VoiceScript™ Software**—Enables your providers to dictate anywhere, anytime, via phone, PC or PDA.
- **3M™ ChartScript™ Software**—Allows staff to transcribe dictation and edit speech-recognized documents remotely.
- **3M™ Electronic Signature Authentication (3M ESA) Software**—Empowers your providers to sign and edit patient documentation anytime, from virtually anywhere.
- **3M™ ChartView™ Software**—Offers online viewing of patient information, clinical data transcribed documents, and even paper records.
- **3M™ ChartScan™ Software**—Enables organizations to electronically capture patient records without increasing staff, and virtually eliminates form redesign.
- **3M™ ChartFact/Locator™ Software**—Analyzes deficiencies, reduces chart completion time and simplifies chart tracking. Works in the hybrid environment for both paper and electronic charts.

## Superior integration

We build systems that can talk to each other and to third-party systems. With superior integration capabilities and expertise, 3M applications are designed to deliver healthcare solutions that work. Whether you are implementing a complex enterprise solution, driving a hospital-wide initiative, or choosing a single departmental solution, 3M will provide interfaces that enable our solutions to integrate with your current technology investments.

## Ongoing support

3M Health Information Systems provides installation, training, and customer support that can help you get the most from your information system investment. Our installations are designed to make system implementation as smooth as possible, while our software training provides live, highly interactive instruction through on-site and web-based sessions. We have support personnel based across Canada providing local support in addition to a 24x7 support center.

## About 3M Health Information Systems

3M Health Information Systems has been helping Canadian hospitals meet their reporting requirements for the last 20 years. We understand the intricacies and challenges involved. Built on 25 years of experience delivering superior coding, grouping, and abstracting products, 3M Health Information Systems today provides exceptional value to its customers through end-to-end HIM solutions. From chart management to coding and grouping to abstracting to consulting, 3M products and services help enhance healthcare operations, improve patient care, and manage electronic records. Across the entire care continuum, across a province or health region, and across multiple systems, 3M is working with you to redefine what is humanly possible.
