## Introducing the new 3M™ Micro Professional Projector MPro110

The biggest news in projectors is small. The new 3M Micro Professional Projector MPro110 projects images up to 50 inches, yet fits in the palm of your hand.

This powerful, portable, pocket-able projector turns the world into your personal theater because it makes any room a projection room.

It's perfect for business meetings because it works in a car, in a cab, on a train, in a plane, on a wall, on the floor, in the store or wherever a presentation is needed.
